

Municipality of Swan Valley West

2024 Dust Control Tender

Tenders Close: April 16, 2024 2PM
Public Opening: April 16, 2024 2PM

Background

The Municipality of Swan Valley West seeks tenders from qualified individuals and companies for our dust control program in 2024.

The Municipality offers residents custom dust control. Under this program we charge residents and collect fees then contract for application with a provider.

We also have additional product applied in certain areas to address safety concerns on some roads.

Tender Registration & Questions

Please register your email address with us as soon as possible to receive updates to this and other tenders. Should any bidder submit a question, the resulting answer will be provided to all those who have registered.

To register, email your name, company name and email address to:

tenders@munswanvalleywest.com

Question must be submitted no later than 72 hours prior to the tender submission deadline.

Tender Opening and Award

All tenders received prior to the deadline will be opened at a public location. You may attend to observe the opening if you wish but attendance is not mandatory. Subsequent to the opening staff and council will review the tenders and will offer a contract to the selected bidder(s).

Terms and Conditions

The following terms and conditions apply to this tender:

1. Prior to contract issuance successful bidders must provide proof of WCB registration, insurance and all other required business documentation where applicable.
2. Dust control is to be custom applied as indicated in the winning tender. Specifics of the application dates and methods will be discussed between the selected bidder and the municipality and agreed to in writing.
3. Bulk dust control product must be listed with FOB location.

Tender Information

Dust Control Custom Application

Please provide a bid that includes both product and application. Indicate the product to be applied along with the technical details of the product including percentage and number of litres per square foot if liquid or if dry product include details of pounds per square foot.

Include details on available application widths that you can apply.

Dust Control Bulk Product

Please provide bids on bulk dust control product. Bids may be on liquid or dry product. Liquid product must be available for pickup in the Swan Valley.

Dry product must indicate FOB point for shipping along with type of chemical, bag size and numbers of bags per skid. Mini-bulk bags are also acceptable but if both bag sizes are available please bid both.
