

Mennonite Disaster Service
Canada

MDS volunteers are currently restoring basements in the Swan Valley West and Minitonas-Bowsman municipalities. Based on need, this may include reinsulating, replacing the vapour barrier and framing.

Do you need help because of flooding?

What is MDS Canada, and how do we help?

At MDS, we respond to disasters, rebuild homes, and restore hope by organizing and empowering volunteers in Canada and the U.S.

Whether it is minor repair or a complete rebuild, we use our network of skilled and unskilled volunteers to help get disaster survivors home again.

Do you qualify for MDS Canada assistance?

At MDS Canada, we focus on those who don't have the resources to recover on their own. MDS Canada does not discriminate in who we will assist. Our help is available to all.

Note: Our assistance is subject to an investigation to ensure a job matches our expertise, and includes an assessment of financial and other needs.
